

Oracle Primavera Implementation Consultant

Project Partners LLC is an Oracle Platinum Partner, Primavera Value Added Reseller, Oracle Fusion Applications partner, and Oracle Certified Education Center. We've developed integrated products that extend the Oracle Projects and Oracle Primavera solutions and have executed global implementations of Oracle applications for over 300 firms around the world.

We are seeking an Oracle Primavera Implementation Consultant to work with our experts at Project Partners.

- 8+ years of Program Management experience in a variety of industries.
- 5+ years of experience with Oracle Primavera P6
- Experience with Oracle Primavera Contractor, Cost Manager, Risk Manager, Enterprise Reporting Data warehouse
- In-depth understanding of Change Management, Risk Management and Quality Management.
- Experience leading team of functional/technical consultants
- Strong communication and client management skills required.
- PMP and PSP certifications are highly desirable.
- Experience with Sales, Product Development and Manufacturing applications like Oracle E-Business Suite, SAP, JDE, etc
- Bachelors degree or equivalent work experience required.
- Strong business acumen, high energy, self-motivated and ability to work under pressure
- Basic knowledge of Oracle Database and WebServices
- Willingness and ability to travel 80-100% of the time

Description of work to be performed.

- Manage the implementation process from concept to program launch
- Review As-Is process and be able to develop and recommend To-Be process based on client requirements and best practices.
- Work with clients to satisfy IT requirements that pertain to solution deployment
- Work with other consultants to document solution requirements, functional and technical specifications
- Manage and execute project deliverables, project charter, risk and issues
- Work effectively with the business to quickly learn the process, culture, and relationships.
- Provide weekly project reports to the VP of PPM
